Dear [REDACTED]

**Re:** Request for Review  
17-127-5  
Our file: 1029-20-CH0256

This letter is in regards to the recommendations made by the Office of the Information and Privacy Commissioner of Nunavut.

As stated in my response to the file 17-127 (2017 NUIPC 15), it is my position that the Department of Culture and Heritage performed an adequate search to identify responsive records which might have been created or retained in personal accounts of employees or which may have existed on personal devices outside of the GN management systems. Employees involved with the search for responsive records signed search declaration forms confirming their efforts to do a complete search.

Thank you.

Sincerely,

David Joanasie  
Minister of Culture and Heritage
